ANG and AFRC Bases

Notes: This section of the guide consolidates major Air National Guard and Air Force Reserve Command bases listed according to the airports whose facilities they share. AFRC units are listed by the names of their bases and are designated as AFRC facilities. There are, in addition, some ANG and AFRC units located on USAF bases. These may be found in the "Major Installations" section.

ANG personnel are organized into two categories. Part-time personnel are traditional Guardsmen who work in the private sector during the week, serve one weekend each month, and go on active duty for two weeks during the summer. If called up by the President, they go on active military status.

ANG’s second category, full-time support personnel, are Active Guard Reserve. Title 32, and Title 5 personnel. Active Guard Reserves are assigned to the state. They do not serve at the national level, but they receive the same benefits as regular active military. Title 32 personnel are civilians employed full-time in ANG, but they wear two hats: They can go on active military status, or be called up by the President, they go on active military status.
