

Breaking Down the 2021 Budget

The fiscal 2021 budget request suggests an investment of \$207.2 billion for the Department of the Air Force. A closer look, however, shows that only \$154.62 billion (74.4 percent) funds Air Force programs and a slim \$15.38 billion (7.4 percent) funds the Space Force. The remaining \$38.2 billion (18.4 percent) is classified intelligence spending.
